It was brought to our attention that the Saba paper did not cite a key source paper: Eom, S. B. (2011). Relationships among E-Learning Systems and E-Learning Outcomes: A Path Analysis Model *Human Systems Management*, 30(4), 229-241.

In addition there are unacceptable similarities in the data and text appearing in the paper to those published in the abovementioned Eom paper.

This is a violation of publication ethics which according to the Springer Policy on Publishing Integrity warrants a retraction of the article and a notice to this effect to be published in the journal.
